HORREDS<sup>®</sup>  
1936

With the storage system Tetris, you can create your own unique piece of furniture.

The modules, available in two sizes, can be mounted lying or standing and the varying depths makes it possible to build furniture with an embossed effect, which makes Tetris stands out in the room. Colors, handles and legs can be varied in verging on endless combinations. Tetris can be wall mounted, placed on walls or become walls if placed freestanding as a room divider.

– We want you as a customer to be able to design your own furniture. A storage unit has many tastes to complete and with tetris, you can choose between an open box that works great as a bookcase, a display cabinet with glass doors or you can create a highly flexible workspace with the retractable desk.

Front and horreds have created the conditions – now it's your turn to build!

. By choosing between various material like felt, copper, leather, brass and steel Tetris can be made into a personal piece of furniture. Everything from large, convenient devices for the office to small and fun furniture for your home can be created with the system. You just have to mix and build!

## FÖRVARINGSMÖBLER > TETRIS

Choose between different design of handles, brass, copper, stainless, leather or why not a milled handle.

Base unit is available white lacquere and doors and flap-doors in felt(Light gray, mid gray, antracite gray), white, ash, stained ash and plywood pinewood.
