Activity. Stability. Adaption. Vx have everything that needs to get the job done. New this year is VX project table with leaning legs in wood or steel. The stable undercarriage can be used with desktops in every shapes and sizes. Use our accessory HUB and the table surface can simply be divided in to many separate work desks. HUB contains electric and network supply and create, together with accessories as desk screens and lighting, a private sphere when working.

Electrical supply and a coat hanger on the sides are available as add-ons.
