

## VX Conference

DESIGN Horreds

Horreds VX Konferens är ett flexibelt T-fotsunderrede där dimensioner och utförande anpassas till storlek på bord; alltifrån små mötesrumsbord upp till stora sammankopplade konferensbord.

VX konferens finns i fasta bordshöjder och vissa storlekar går även at få elektriskt höj & sänkbart.

VX Konferens T-benssystem klarar av rektangulära, båtformade, och V-formade skivor (videokonferens). Vad gäller bordskivor så hanterar systemet både VX, Fri och Henry bordsskivor.

Man kan välja till kabelluckor i samma material som bordsskivan. Väljer man träluckor blir de mönsterpassade mot skrivbordets faner.

Eller välja att komplettera med vårt tillbehör HUB, så kan bordsytan enkelt delas in i separata arbetsplatser när det behövs. HUB rymmer både el och nätförsörjning och skapar, tillsammans med tillval som skärmar och belysning, en privat sfär för arbete.

Vilket stativ passar till vilken skiva?

Horred's VX Conference is a flexible T-leg system where dimensions and design are adapted to the size of the table; from small meeting tables up to large interconnected conference tables.

VX Conference is available in fixed table heights and some sizes can also be electrically raised and lowered.

VX Conferens T-leg system can handle rectangular, boat-shaped and V-shaped (video conference) tops. As for table tops, the system handles both VX, Fri and Henry table tops.

You can choose cable flip cover in the same material as the table top. If you choose wooden flip covers they will be pattern-matched to the veneer of the table.

Or choose to supplement with our accessory HUB, and the table surface can easily be divided into separate workplaces when needed. The HUB houses both electricity and mains supply and creates, together with options such as screens and lighting, creates, a private sphere for work.
