

VX CONFERENCE

Horreds VX Konferens är ett flexibelt T-fotsunderrede där dimensioner och utförande anpassas till storlek på bord; alltifrån små mötesrumsbord upp till stora sammankopplade konferensbord.

VX konferens finns i fasta bordshöjder och vissa storlekar går även att få elektriskt höj & sänkbart. Kulörer: vit RAL9016 och svart RAL9005.

VX Konferens T-benssystem klarar av rektangulära, båtformade, och V-formade skivor (videokonferens). Vad gäller bordsskivor så hanterar systemet både VX och Fri bordsskivor.

Man kan välja till kabelluckor i samma material som bordsskivan. Väljer man träluckor blir de mönsterpassade mot skrivbordets faner.

Eller välj att komplettera med vårt tillbehör HUB, så kan bordssytan enkelt delas in i separata arbetsplatser när det behövs. HUB rymmer både el och nätförsörjning och skapar, tillsammans med tillval som skärmar och belysning, en privat sfär för arbete.

Horred's VX Conference is a flexible T-leg system where dimensions and design are adapted to the size of the table; from small meeting tables up to large interconnected conference tables.

VX Conference is available in fixed table heights and some sizes can also be electrically raised and lowered. Colours: white RAL9016 and black RAL9005.

VX Conferens T-leg system can handle rectangular, boat-shaped and V-shaped (video conference) tops. As for tabletops, the system handles both VX and FRI tabletops.

You can choose cable flip cover in the same material as the table top. If you choose wooden flip covers they will be patternmatched to the veneer of the table.

Or choose to supplement with our accessory HUB, and the table surface can easily be divided into separate workplaces when needed. The HUB houses both electricity and mains supply and creates, together with options such as screens and lighting, creates, a private sphere for work.
